PROFESSIONAL CERTIFICATION DEFINITIONS

CEI – Certified Environmental Inspector

The CEI performs Basic Environmental Inspections on residential and/or commercial properties. This consists in the visual inspection of the property and possibly researching available environmental data to present a comprehensive report to the client. The CEI will understand a broad range of environmental issues at a basic level.

CEM – Certified Environmental Manager

The CEM has managed one or more persons in the Environmental industry. The CEM has a broad range of knowledge involving environmental issues.

CES – Certified Environmental Specialist

The CES is an experienced Environmental Professional that can provide a range of environmental services. These can include environmental testing and hazardous material removal.

CEC – Certified Environmental Consultant

The CEC designation may be selected for those Environmental Professionals who have a broad range of knowledge and work experience involving environmental issues. The CEC may be more involved in reviewing work from the field and consulting with clients, co-workers and management level decision makers.

CMI – Certified Mold Inspector

The CMI designation is for those who are certified in hands-on mold inspection procedures usually for residential and/or commercial properties. The CMI should operate in compliance and adhere to all City & State requirements and regulations.

CMS – Certified Mold Specialist

The CMS is an Environmental Professional who specializes in a wide range of mold and mold contamination, such as assessment, analysis and microbiology.

CTS – Certified Testing Specialist

The CTS designation is especially for those Environmental Professionals in the field who are testing for Environmental hazards, those who work with field samples in laboratories and testing plants, and those who analyze the test results.

CRS – Certified Remediation Specialist

The CRS is an Environmental Professional who provides a variety of services including, but not limited to, Phase III and Remediation Services, and hazardous material handling and removal.

CAQS – Certified Air Quality Specialist

The CAQS designation is reserved for Members who conduct hands on air quality testing. This could include, mold, radon, gases and other possible contamination issues. These professionals usually work with a professional laboratory to have the collected samples analyzed and assessed in a written report format for their clients.

Affiliate Member

The Affiliate Member designation is reserved for professionals who work in the Environmental Industry or who have clients in the Industry and are interested in keeping up-to-date on the profession while not having the technical experience or designations required for “Certifications”.

Retired

The “Retired” designation is to be used for Members who have had at least 5+ years of prior “active” EAA Membership and who have stopped conducting inspections and working with clients. These “retired” professionals wish to receive industry updates and take advantage of the many benefits offered to our active Members.
